1800 FormBoss™
That's 1800 367 626

What is FormBoss™ Metal Garden Edging?

FormBoss™ is a premium garden edging solution made from long lasting, flexible steel.

FormBoss™ Metal Garden Edging is safe with its rounded top lip from 5.5mm to 7.5mm width, and all stakes and connectors are hidden under this lip. The top lip also enables you to create sharp bends without any sharp edges because there's no need to cut and join: just bend the edging and enjoy the strength and smoothness of a continuous edge. Smooth curves are easy to create on-site and the edging bends just as easy with the lip on the inside or outside of a curve. Angles can be bent directly into the steel. Straight lines can be achieved with ease. We can also make you tree rings to any specified diameter you want.

FormBoss™ Metal Garden Edging comes in a huge range of heights and gauges to suit any edging need, from flush defining lines to 450mm retaining walls. From great value residential grade of 1.6mm to heavy duty commercial grade of 2.5mm gauge. In order to support the edge we have developed a large range of special stakes and connectors to support and connect the edging without interfering with your clean uninterrupted lines.

FormBoss™ Metal Garden Edging is available in our ever popular **galvanised** version, or **stainless steel** for the harshest of environments, and we also offer an exclusive **Corten** version that gives you that nice natural rusty texture with a lifespan of up to four times as long as traditional mild steel! See our website to find out more about our **NEW self-healing ZAM steel**. It's up to three times more resistant to corrosion than galvanised steel and only a fraction more expensive.

Specially manufactured for optimum results:

Simple design and easy to install, anyone can do it!

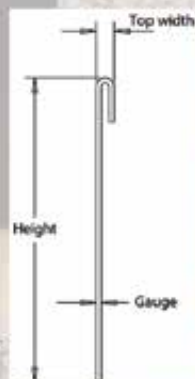

Heights available: 75mm, 100mm, 150mm, 185mm, 230mm, 290mm, 390mm and 580mm.

FormBoss™ is made from 1.6mm, 2.0mm and 2.5mm gauge steel.

FormBoss™ comes with a 5.5mm, 6.5mm or 7.5mm rounded top safety lip depending on your gauge of steel.

Available in 4 different finishes including **galvanised**, **Corten** and **stainless steel** (stainless via special demand only) & **NEW ZAM**.

AND we keep a minimum of 15 kms of edging stocked at all times.

**DISCOVER A SIMPLE WAY TO IMPRESS YOUR CLIENTS,
INCREASE YOUR PROFITS,
AND GET FREE MARKETING
WITHOUT ADDING A TON OF EXTRA WORK!**

If you own or operate a supply yard or nursery then you can be among the first people in Australia to be offered a chance to supply a fantastic garden edging product: FormBoss™ which your customers will love... For the last 8 years FormBoss™ has only been available direct to landscapers and to the public online, however 2013 has seen the launch of FormBoss™ being available for suppliers and resellers and you are among the first to be offered this opportunity.

So here's why this is important for you:

Landscapers all over Australia are already using FormBoss™ to create amazing and stunning garden designs both for commercial works and private designs. We have already perfected the product and established a demand!

Award winning designs!

FormBoss™ was featured in the 2013 Flemings display at the Chelsea Flower Show. The display won both a gold medal and the prestigious 'Best In Show' award only given to the best of the best in the industry. Our metal garden edges have also been incorporated into over 16 designs at the Melbourne International Flower and Garden Show just in the last two years. These displays have been very successful winning multiple awards. We have got a lot of attention from the press in recent times as a result, and have been included in many episodes of Better Homes and Gardens. FormBoss™ has also been featured with Jamie Durie in the Woman's Weekly Easter Special TV show this year.

Very easy to sell

Much of the sales work has already been done for you. When people see your FormBoss™ display in your store, many people will recognise it from these well publicised designs and events.

More profit from each customer

The FormBoss™ system is so simple that anyone with little or no DIY experience can install our garden edging system and get long lasting and professional looking results every time. Some clients prefer an installation service, as a supplier you have the right to offer a FormBoss™ installation service that you can set your own price point for.

As a FormBoss™ Supplier: You Will Receive:

- Custom stocking and display solutions that will have FormBoss™ practically sell itself from your store, including a rolling video that explains and sells customers on the FormBoss™ edging system.
- Simple training that will help you easily sell your customers on the exceptional results that FormBoss™ will provide them.
- The opportunity to offer a FormBoss™ installation service at whatever cost you see fit in order to further increase your profit from our garden edging system.
- FREE advertising and visibility on two premium websites (we have both a trade and a retail site) which are both on the first page of Google and get a ton of traffic.
- Support hotline six days a week for any questions you need answered.
- Bonus edging with your initial order. We have a few different start-up packages. The more edging you commit to stock, the more bonus edging we will send you for your first order.
- Bulk discount sliding scale: the more FormBoss™ you sell, the better your margins will get, and the cheaper the freight costs become.

In addition, you only need to stock our hottest selling products, but you still get a commission for any FormBoss™ sale you make (for systems you are not stocking). We can even deliver direct to your customer.

You will need to be currently:

- Supplying landscapers, builders and/or DIY-ers with a range of products
- Have existing customers
- Be established in your field

So how can I get involved?

- Go to www.FormBoss.com.au and click the resell FormBoss™ link. There is a video that will give you more information, as well as an expression of interest form to fill out.

If your business is already doing well and you are looking for an exceptional product to support your success, then your business and FormBoss™ is an excellent fit.

Installers Please Note!

We want your FormBoss™ before and after installation pictures

In exchange for multiple forms of free advertising
